

Investment program. General principles

February 2018

These Rules are a public offer and are binding on all participants. The rules only apply to investment accounts of all stages. There are no such restrictions on live accounts.

1. General rules

1.1 A trader has the right to register only one investment account.

1.2 It is forbidden to enter your own funds into an investment account. In parallel with trading on an investment account, a trader has the right to trade on his own real account (without limiting the number of real accounts).

1.3 Referral accruals for closed transactions on the investment account are not made. But when moving to the next step, the agent who attracted the trader is paid 10% of the trader's profit in the form of credit funds. At the same time, the trader's profit does not decrease, the Company pays remuneration from its own funds.

1.3 By registering in the investment program, the trader fully agrees with these Rules

1.4 When registering an investment account, a trader indicates his nickname, and a real account to which profit will be credited in the form of credit funds. It will be impossible to change nickname and real account number.

1.5 The deliberate use of server failures to open trades leads to the immediate blocking of the investment account. There is no second chance to work in the investment program.

1.6 The trader is obliged to independently request a transfer to the next round on the page <https://www.forexstart.org/invest/next-round>

1.7 All restrictions imposed by the Client Agreements on real accounts also apply to the investor account (including Clause 8 cancellation and change of positions)

2. Account verification

2.1 Account verification in the investment program is made only once

2.2 When proceeding to the next step, the Company has the right to request a photo of your passport. Prerequisite: a passport photo must be taken so that the entire passport is visible. In this case, it is necessary to use paper with the inscription "ForFxstart»Close your own signature - the rest of the data must be readable. Passport scans are not accepted.

2.3 Surname and First name in the document must be written in Cyrillic or Latin characters. Documents with no name and surname, or written in other characters are not accepted.

2.4 The document must have a photograph

2.5 If as a document you indicate NOT a passport of a citizen of the Russian Federation, you are obliged to send the photo in which you are holding this document. The data on the document must be readable. It is advisable to close your signature with your finger.

2.6 The trader is obliged to indicate his own number phone. The company has the right to

check this phone number using SMS... If the trader cannot specify the data sent to SMS, the account is deleted regardless of the profit received on it.

2.7 The trader is obliged to indicate his own e-mail... The company has the right to check the specified email address using an email containing a confirmation code... If a trader cannot specify this code, the investor account is deleted regardless of the profit received on it.

2.8 If the surname, first name or date of birth specified by the trader does not match when registering an investor invoices with last name, first name and date of birth (if this information was requested) in the passport - at least in one character - investor the account is blocked regardless of the profit received on it. Unlocking investor account is impossible.

2.9 If there is no surname or first name, the account is blocked without the possibility of unblocking.

2.10 The trader's real account must be verified by crediting any amount to it (at least 0.01\$) in any way. This money can be withdrawn immediately. Withdrawal of profit in the form of credit funds will be possible only to the same account in the same payment system.

3. Requirements for transactions

The company has the right, but not the obligation to apply the following points:

3.1 Since this program is focused on finding traders who can be provided with funds for management, the trading style should guarantee the ability to individually re-buy your trades on the external market. First of all, the duration of transactions must be more than 10 minutes. We have the right to cancel any profitable trades less than 10 minutes. Fully or partially locked transactions fall under this rule - we have the right (but not the obligation) to cancel locks, within which the opening of the opposite transaction was carried out in less than 10min.

3.2 Trader must complete at least 10 transactions on the account.

3.3 Transactions in the same currency pair, the time between the openings of which is less than 10 minutes, are considered one transaction

3.4 Transactions are opened according to the principle Market Execution and, unlike real accounts with guaranteed execution, we can execute transactions on investment accounts on real being current price (better or worse than the request price).

3.5 Level Margin Call (Warning level) is set to 90%.

3.6 Level Stop-Out (Close level) set at 80%

3.7 If a trader has not made a single transaction on the account within two months, the Company has the right to close account (even if there are currently open transactions on the account). If there is a profit on it, it will be considered that the account has never been opened. If the account is unprofitable, the trader can open a new account only according to the rules of the Second Chance.

4. Working hours on the account

4.1 The rules for working on the account are determined by the rules of the step at which

you are trading.

5. Payment of funds

5.1 To receive the earned profit in the form of credit funds, the trader must enter the data on the page <https://www.forexstart.org/invest/next-round>

5.2 Credit funds are credited only to the real account of the trader, the full name, e-mail and phone number of which coincide with the full name, e-mail and phone number of the investor account.

5.3 The balance of the account to which funds are withdrawn must be positive. In this case, a real account must be replenished at least once (for any amount - from 0.01\$)

5.4 Withdrawal of funds from the real account earned on the investment program is carried out only using the method in which the trader verified the real account.

5.5 Funds paid for participation in invest. The program is non-deductible (credited as non-deductible). They are fully available for trading, profits from them are fully available for withdrawal. To withdraw these funds, you must trade (withdrawal is possible after paying a commission three times greater than the transfer amount)

6. Account blocking

6.1 The investor account can be blocked if the trader has indicated Full name not matching Full name in the passport, or cannot confirm his phone number or his e-mail. Accounts that have identical phones, e-mails or full names are also blocked. The account is blocked regardless of the amount of profit.

6.2 Accounts that use the same may be blocked ip and browser

6.3 Only one person is allowed to trade from one computer. Otherwise, both accounts will be blocked.

6.4 Accounts cannot be unblocked.

6.5 Close relatives are prohibited from simultaneously participating in the investment program. Disqualification of one person will result in disqualification of all family members. In this case, one of the family members can take a second chance.

7. Early withdrawal of funds.

7.1 Early withdrawal of funds from the investor account is NOT POSSIBLE...

8. Moving by profit on a real account

8.1 The trader has the right to go to the next round at any time with the help of the profit that he will receive on a real account - at his own expense.

8.2 If you have made a profit on a real account to which an investment account is attached - you can at any time, regardless of the transactions, their number and duration, get an account at the next stage of the investment program.

8.3 In this case, profit from the investment account is not taken into account.

8.4 No funds are debited from your real account - they are your money. You prove to us that you can earn money - we transfer you to the next round.

9. Second chance

8.1 The trader has the opportunity to get a second chance if his account received unacceptable loss, or has been blocked in accordance with section 6

8.2 The trader who gets the second chance starts again from the first step.

8.3 The account on which the profit was made, or the profit of which is equal to 0, or the account on which no trading was carried out - can be deleted at any time, but the trader can get a second chance only after earning 50 \$ on a real account, after which the trader has the right to register a new investment account.

8.4 To get a second chance, a trader must move his old losing or blocked account to a special group, where it will not be counted. If you do not do this and immediately register a new account, it will be blocked.

8.5 For transferring a losing account, the trader must open a real account and make a profit on it equal to the loss on the investment account. All profits remain with the trader.

8.6 These Second Chance rules apply to everyone - incl. previously losing traders.

10. Link to past rules

Within two months after entering these rules, traders who registered accounts before entering them have the opportunity to move to the next stage according to the old rules.

11. Referral charges

When your referral goes to the second round, you get 1\$

When your referral goes to the third round, you get 2\$

When your referral goes to the fourth round, you will receive 10% of the referral's earnings on the investment account (10% of crediting to his real account), at least 10\$

When your referral goes to the fifth round, you get 10% of the referral's earnings on the investment account (10% of the crediting to his real account), at least 20\$

When your referral goes to the sixth round, you get 10% of the referral's earnings on the investment account (10% of the crediting to his real account), at least 200\$

If a trader attracted by you works with us on individual terms, you will always receive 10% of his earnings.

Any auto-referral payments are blocked - with the blocking of the trader's account. You are not entitled to receive referral payments from your account yourself.

There is a five-level referral program.

If your referral's referral proceeds to the next round, you will receive 50% of your referral's earnings. i.e., accordingly 1\$, 1.5\$, five\$, ten\$, 100\$.

Accordingly, if his referral has moved to the next stage, you will receive 25% of his agent's earnings. Respectively: 0.5\$, 0.75\$, 2.5\$, five\$, 50\$.

There are two more levels - your profit will be 50% of each next step.

In other words, if you attract 100 referrals, each of them will attract 10 referrals, etc., while

50% of them will be able to earn 1 \$ with 100 \$ then you will only get from the first 3 levels:

$$2 \$ * 100 + 0.5 * 1000 + 0.25 * 10000 = 3200 \$$$

If 10% of them will go to each next round, then you will double this amount.

If you count all 5 levels, then you get:

$$2 \$ * 100 + 0.5 * 1000 + 0.25 * 10000 + 0.125 * 100000 + 0.0625 * 1000000 = 78\ 200 \$ \text{ only}$$

for the first round - subject to the transition to the next stages of 10% of your referrals, you increase this amount to about 200,000\$.

In fact, we have agents who attract about 20-30 people a day (it should be noted that your referrals do not have to deposit funds at all and just get the opportunity to earn money) and earn up to 4000-10,000\$ credit funds per month. However, this amount includes referral charges from real accounts.

You will be able to attract customers using a referral link to any page of the site, as well as using a referral tag. A tag is a word that your referral can enter when registering. If he enters this word, he will not only become your referral, but also receive special preferences: On the account of the first stage, he will receive 200\$, his earnings to proceed to the next stage must also be equal to 1\$. This is to ensure that your customers don't forget to record your tag.

12. Quick jump to the next tour

An early transition to the next round can be carried out using a real account attached to the investment account. To do this, you just need to earn the required amount on a real account. Those. If you are on the second round and want to quickly move to the third, you just need to earn 50\$ on your real account - at the same time you do not share your profit with us - and just get an account on the third round. However, there is no minimum trading time. You can earn 1 in one day\$ for the first round, 50\$ for the second, 1000\$ for the third and immediately be on the fourth round.
